Experiences as a learner in IGNOU

Post my under-graduation in Economics at University of Delhi, I enrolled myself in IGNOU for a Masters' degree in Economics.

IGNOU provides a variety of courses all over the world. As a distant learner, my experience was an enriching one. I got an opportunity to reach out to the faculty members at the Study Centre. Moreover, the study material provided by the University is a unique one, covering different aspects of the subject, which helped me to think in a new dimension.

Further, the prospectus is really useful. It is a clear guide that provides the candidates right direction and supports them throughout the course. Also, the evaluation process is really appreciable as it involves weighted marking for assignments and term-end examinations. The past year question papers available on the website also helped me to perform well.

Presently, I am pursuing Post-Graduate Diploma in Finance from University of London. I am thankful to my parents, teachers and my family members for their guidance and support.

Ritesh Gupta – Gold Medalist (MCOM)

Experiences as a learner in IGNOU

This was altogether a new learning experience for me wherein I had been dependent on teachers till my academic tenure. This open learning school of thought made me believe in my own capabilities by imbibing from the study material and assignments. This opened up new paradigms in my mind and developed a curiosity to find newer

perspectives. I found this pedagogy combined with the world class study material and evaluation criterion as the qualitative benchmark. Needless to say, that this course has made me evolve as a better professional besides a good citizen. I thank you IGNOU team for bringing out best of me.
